DESIGN DIRECTION

Premium, dignified, human-centered and institutional. The design uses the HRSJM logo palette—deep navy, royal gold, warm cream and white—supported by documentary photography and editorial typography.

1. Design Principles

- **Dignity First:** serious, respectful and institutional; avoid cartoon-like, neon or overly playful styles.
- **Human First:** use documentary photography and real-world human stories.
- **Clear Before Beautiful:** users should quickly understand who HRSJM is, what it does and how to Join, Donate, Renew or File a Complaint.
- **Institutional Trust:** strong typography, whitespace, consistent spacing and restrained animation.
- **Accessibility:** keyboard navigation, readable text, proper labels, clear errors, alt text and sufficient contrast.
- **One Brand:** website, Web App and Mobile App should feel like one HRSJM product.

10. Photography & Graphic Language

- Preferred imagery: Indian communities, human expressions, community meetings, legal awareness, education, women and children, social work and events.

17. Final Design Rule

Navy = Trust & Institution
Gold = Justice & Action
Cream = Humanity & Warmth
White = Clarity
Photography = People & Reality
Serif Typography = Dignity & Editorial Authority
Sans Typography = Modernity & Usability
Gold Brush Elements = HRSJM's distinctive visual signature

The interface should remain clear, dignified and action-oriented.
Visual design must support the actual HRSJM journeys rather than becoming decorative for its own sake.
